HUMAN-SIZED SPIDER WEB

Group size: 15-20 persons
Duration: 60 minutes
Objectives: <ul style="list-style-type: none">● Let participants experience to work in team and to network for a common goal● Facilitate group work● Fostering a reflection on the importance of networking
Description: <p>The goal of this activity is to physically pass each team member through a human-sized spider web within the time limit. Create a human-sized spider web outdoor using a rope and two trees. Let more holes than participants.</p> <ul style="list-style-type: none">● Let participants know that they will participate in an activity that foresees that each group member passes through a human-sized spider web within a time limit.● Introduce the rules of the activity:<ul style="list-style-type: none">- all group should pass through the spider web within 20 minutes- they have 10 minutes to think about a strategy- each team member has to pass through a different hole. The same hole cannot be use twice- participants can support each other, but they cannot touch the spider web (rope).● Let them start and identify a strategy (10 minutes)● When they are ready, ask them to start the activity. Every time a member touches the rope and/or uses the same hole that has been used by other participants, ask all participants to start from the beginning.● Once 20 minutes are passed, stop the activity and ask participants to sit for the debriefing.
Debriefing - Evaluation: <ul style="list-style-type: none">● How are you? How was the experience?● What did you discover about each other, and about the team work?● What does this activity tell us about networking?● Is it easy/difficult to network?● Can networks facilitate inclusion processes? <p>Close with the evaluation of the session, asking participants to express their appreciation with 1 WORD.</p>
